To Whom It May Concern,

“Willow” Vesco, a 2 year old Golden Retriever owned by Gina Vesco was examined by our clinic on 4/26/11 for an evaluation of her hip conformation.

Radiographs showed mild flattening of the femoral heads and thickening of the femoral necks. We would subjectively rate these hips as “fair”.

If you have any further questions, please feel free to call.

Sincerely,

  
Kathleen G. Murphy, DVM
